TWO SHOT TO DEATH IN A SUBWAY BATTLE

Lone Robber Tries to Steal Bag Containing \$4,000 From Bank Messengers.

NEW YORK, December 4.—Alan Gardner, a bank messenger, and George De Brosa, a robber, died late last night from bullet wounds received in a sensational attempt made by the latter to steal a bag containing \$4,000 in the 14th street subway station during the rush hour late yesterday.

Gardner was shot by De Brosa, who was in turn wounded by bullets from his own revolver, which had been wrested from him by Walter F. Orlean, another messenger. De Brosa died first, Gardner ten minutes later. The messengers were employed of the Bank of the Metropolitan in Union Square, near the scene of the hold-up.

Carried Three Revolvers. De Brosa, who was armed with three revolvers, carried nearly 200 cartridges, a bag of black powder and wore two suits of clothing, walked up behind the messengers as they were buying tickets for the subway. He then drew a revolver and fired, wounding Gardner in the chest. De Brosa then fled, but was caught by a patrolman and taken to the police station.

Looked Revolver From Robber. Orlean, however, wrested the revolver from De Brosa, who ran on. As the robber reached the topmost step Orlean fired twice, a bullet lodging in De Brosa's back. He dropped his body and fled into Broadway. Orlean recovered the bag, but kept in pursuit.

By this time police were approaching from several directions. De Brosa then drew his third revolver and fired, but was caught by a patrolman and taken to the police station. Gardner was taken to the hospital and is expected to recover.

Poses After Bandits WHO TRIED TO ROB TRAIN. Attended Hold-Up Foiled by Coolness of Theodore P. Homard, the Engineer.

LITTLE ROCK, Ark., December 4.—To possees tonight pursuing the bandits who last night attempted to hold up a south-bound passenger train on the Iron Mountain railroad near Malvern, Ark.

The hold-up was foiled through the coolness of Theodore P. Homard, the engineer, and so quickly were officers and citizens on the trail of the would-be robbers that a battle was fought with less than three hours later. Sheriff J. Stanley of Malvern was wounded in the foot.

The attempted hold-up was similar to others perpetrated in the southwest in past months. Two men climbed on the "blind baggage" into the engine cab, ordered Engineer Homard to stop the train when he saw a campfire. The engineer took his time bringing the train to a halt and the robbers were carried a mile beyond the place where their confederates were supposed to be waiting. Seeing that they were outwitted, the men leaped from the train and escaped.

CITIZENS' ASSOCIATIONS

ARE ASKED TO GIVE AID

Advertising Vigilance Committee Wants One Member From Each Organization in District.

Letters have been sent to all citizens' associations inviting them to name a member of the advertising vigilance committee which has been formed by the Retail Merchants' Association.

The letter of invitation reads, in part, as follows: "It is the purpose of the Retail Merchants' Association to take steps which will at all times assure the effectiveness of advertising, and to do that most thoroughly the association is asking the co-operation of forty-odd citizens' associations, so that each body may have a representation on its advertising vigilance committee, which will investigate all claims of false and misleading advertising."

This is a constructive movement in the interest of all the people. It has been undertaken with a high-minded purpose, and the Retail Merchants' Association believes that the best results can be secured through the direct co-operation of the public. It will involve no expense for your association or those who represent it on the committee."

The battleships New Jersey, Virginia, Georgia and New York, completing the third division of the Atlantic fleet, arrived in Hampton roads, Va., yesterday afternoon.

Don't waste dollars in smoke!

"That smoke represents wasted profits—lost fuel—unburned coal—and breaks the city smoke laws. Let us show you how to burn it—and turn waste into profit."

"We will prove to you by test that you may burn the very cheapest grades of soft coal and get quite as much total heating power (without smoke) as if you used high-priced hard coal or semi-bituminous coals."
